DETAILED ACTION

Allowable Subject Matter

1. Claims 11-17 are allowed and they were renumbered 1-7, respectively.
2. The following is an examiner's statement of reasons for allowance:
Regarding independent claim 11, the prior art of record fails to teach the claimed invention with the reasons:

The combination of STAELIN (US 5,835,777) in view of MINEAR (US 2003/0032406 A1) fails to teach selecting separate configuration files for each installation item; and accessing each configuration file to identify parameter values. STAELIN teaches the use of a single configuration file [manifest file] used to configure an installation item, while MINEAR teaches configuration of multiple mobile devices through a common server.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
